

# Covid-19 guidance for Places of Worship

**Here are the key ways in which places of worship can maintain safety during the Covid-19 outbreak:**

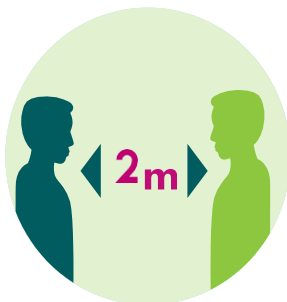

To support the NHS Test and Trace programme, worshippers should register when entering a place of worship. This will help any contact tracing work if it is needed.

To enable worshippers to keep a two-metre distance from each other, places of worship will have limited space and capacity.

Worshippers must bring their own items such as prayer mats and religious texts.

Worshippers should avoid public transport when travelling to and from a place of worship.

Worshippers must not attend if they have any symptoms of COVID-19.

**Keep a minimum distance of 2 metres apart where possible**

**Wash hands frequently (for at least 20 seconds) or use a hand sanitizer with a minimum of 60% alcohol**

**Avoid touching your face, nose and eyes**

This advice comes into effect from the 4<sup>th</sup> of July 2020, and remains under review and may be updated in line with the changing situation. For further information please search for the 'COVID-19: Guidance for the safe use of places of worship from 4 July' on the Gov.uk website
